Acton Boxborough Regional High School Acton, MA

Dedicated not only to teaching, but also to helping the students of the Class of 1985, Bill Noeth is a major reason why we had such a successful four years. Affectionately known by his students as "Wild Bill," Mr. Noeth has been an invaluable asset to our class. He has spent countless hours with our projects and nearly sacrificed his thumb in the process, but he has persisted when a lesser man would have given up. If not solving equations or yelling at day-dreamers, he often could be found getting students and faculty to buy A-B tee-shirts and buttons to "improve their figures and appearances." Some will remember him for his proclamation that "Math is Life!" and his denunciation of "Jock Junk" ("Who needs that when you can do math?" he asked.) We'll also remember work he put into activities such as the magazine and candy sales, the talent show, prom, and senior banquet.

Mr. Noeth, we respectfully and affectionately, dedicate this edition of the TORCH to you, our class advisor, our friend.

Flag of Excellence

THE WHITE HOUSE

WASHINGTON

November 15, 1984

Dear Dr. McNulty:

Nancy and I want to express our sincere thanks for your thoughtful letters and the varsity jackets which you presented to Andrew Card for us at your school's flag-raising ceremony in October. We very much appreciate the special remembrances of friendship from everyone at Acton-Boxborough.

It was a pleasure to greet you and everyone who attended the Secondary School Recognition Program at the White House last summer and to award your school with a "Presidential Flag of Excellence" for its educational achievements. America is dedicated to excellence in education, for it means a better life for our children and further secures the liberty which we cherish.

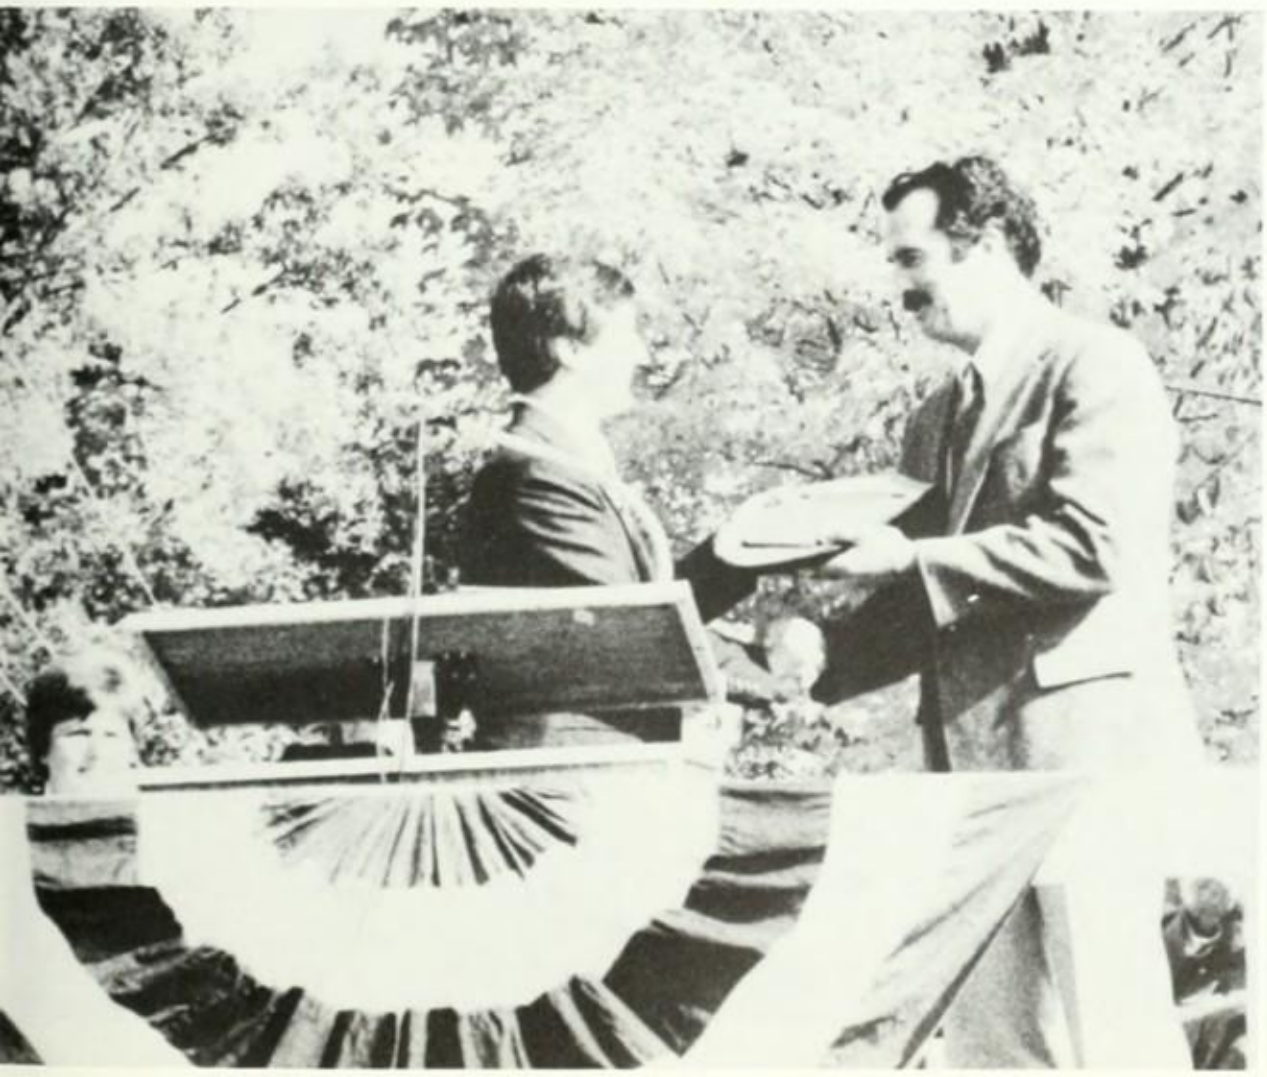

Please accept my deep gratitude for your granting me an "A" on my "report card" for the past term. To know that I can count on your support throughout the next four years is indeed a source of encouragement.

With my best wishes to the entire faculty and student body for the promising years ahead,

Sincerely,

Ronald Reagan

Farewell, my friends, my path inclines to this side the mountain, yours to that. For a long time you have appeared further and further off to me. I see that you will at length disappear altogether. For a season my path seems lonely without you. The meadows are like barren ground. The memory of me is steadily passing away from you. My path grows narrower and steeper, and the night is approaching. Yet I have faith that, in the definite future, new suns will arise, and new plains expand before me, and I trust that I shall therein encounter pilgrims who bear that same virtue that I recognized in you, who will be that very virtue that was you. I accept the everlasting and salutary law, which was promulgated as much that spring that I first knew you, as this that I seem to lose you.

My former friends, I visit you as one walks amid the columns of a ruined temple. You belong to an era, a civilization and glory, long past. I recognize still your fair proportions, notwithstanding the convulsions which we have felt, and the weeds and jackles that have sprung up around. I come here to be reminded of the past, to read your inscriptions, the hieroglyphics, the sacred writings, We are no longer the representatives of our former selves.

Love is a thirst that is never slaked. Under the coarsest rind, the sweetest meat. If you would read a friend aright, you must be able to read through something thicker and opaquer than horn. If you can read a friend, all language will be easy to you. Enemies publish themselves. They declare war. The friend never declares his love.

Mrs. Starr,
Thank you so much for everything! You are the very "Pine-apple" of perfection!
We Love You!!
— Heather, B.J., Andrea, & Michelle

Sux,
It's really been great being diagonal desk buddies! (desk buddies forever!!!!) this was a great year and the only thing I think we were ever at was Talent Show Nite ... and I saw her get out of a car w/ a beer in her hand! "Hon, that was your realization period! ("Duke") though we may not be true to desk buddies, well) all be locker buddies. We've had some good times in the past (some too past) and I hope we have some in the future!! (party on the tennis courts (Pkg. Hill)).

Oh, and we can't forget lunches ..... chow time. Hunger pains after Gun's class. I'm so glad I sit in the back so I don't get spit on!!! I won't even mention that's class ...

Anyway, I really hope we get together this summer like last yr. We'll definitely play tennis unlike last summer. Maybe I'll even call and we'll discuss the 50th rerun of Gidget. She's back!!! (6:30; ch. 25)

Love ya always, and forever,
old desk buddie
(Elena)

Sue,

or chief Sioux! Wow-what a year! (HA) 4 classes together. Gym what fun - were so lucky to have been able to be in the presense of 2 studs - what great bods - I'm sure you'll go to the prom with one of 'em next year don't fret. Mrs. Brady sneakers all the way they're "groovy". English Beat + General Public are so cool - so what if no one knows who they are. Good luck canoeing with C.F - lucky! Chem - yuk! x-tra help that is given us before! I still think Chris (not F) is cute even if you forgotten in 5 minutes when we got question she had never think he's stuck on himself - oh well. Chris' are cool - right? We have to get together this summer and go looking for second hand clothes - the BEST! (give me a call 263-3952). Ready for your radical change over the summer? Keep in Touch.

(you're a good kid
have a great summer)
